CONTEMPORARY POST WAR ART

JN Investment Art has an expertise for works by Contemporary Post-War artists who have lived and worked in the South of France. We specialise in the unique group of artists who have had a powerful impact on the world of art.

These include: *Yves Klein*, his wife the artist; *Rotraut*, and his mother; *Marie Raymond*. As well as *Charles Malaussena*, *Albert Chubac*, *Simon Bussy*, *Nivèse*, *Merlot*, *Vidal*, *Ben*, *Vojic* and *Tilmans*. All these artists were exceptional and their works are continuing to increase in value.

They were the cutting edge Mavericks who took their lead from: *Pablo Picasso*, *Henri Matisse*, *Marc Chagall*, *Jean Cocteau* and *Albert Gleizes*.

"Because of their growing international reputation and the high demand for the work by influential French Contemporary Post-War artists...They (the post war art) are an ideal investment and will continue to escalate in price over the next 10 years."

Jenny Pat, Art Expert Presenter for 'Dealers' TV series, Discovery Network (July 2012).
